

Become a member of the Saarland University of Applied Sciences family. We are one of the most research-oriented universities of applied sciences in Germany with a strong entrepreneurial spirit. Thanks to our active university partnerships around the world and twelve Franco-German degree programs, we are both Francophile and internationally oriented. Our university currently has over 6,000 students and is located in the heart of Saarland's capital city, Saarbrücken. Enjoy the benefits of a dynamic and lively border region with an exceptionally high quality of life, while providing the next generation of specialists and managers with the best possible education and preparing them for the challenges of the future.

The Social Sciences Department has a vacancy for the following position to be filled at the earliest possible date:

W2 professorship (m/f/d) for Applied Nursing Sciences

→ Your profile

We are looking for an individual with outstanding expertise in teaching fundamental medical skills in areas relevant to the faculty's degree programs across teaching, research, and continuing education, with a particular focus on clinical and advanced medical skills.

Additionally, the role entails the following responsibilities

- Proven technical and personal expertise in teaching fundamental medical skills for nursing care degree programs
- Extensive expertise with regard to the advanced skills required to perform medical tasks (see Section 37(2) of the PfBG in the version dated January 1, 2025)
- Expertise in clinical research and experience in acquiring third-party funding
- Willingness to actively shape and promote the professionalization process and the development of nursing as a discipline. Attention should also be paid to the special features of primary academic qualifications.
- Completed nursing care training desirable
- Additional language skills in French and/or another foreign language are an advantage, as is proof of international contacts and experience

A well-founded teaching and research concept must be submitted together with the application documents.

Your tasks

- Assuming responsibility for theoretical and practical teaching in our health-related degree programs, as well as interprofessional teaching in other degree programs at the faculty, especially in the medically oriented modules
- Willingness to take on new interdisciplinary challenges, for example in the theoretical and practical implementation of the extended transfer of medical knowledge
- Conceptual and curricular (further) development, establishment and consolidation of a nursing-related degree program
- Research and publications in the relevant fields
- Participation in academic self-governance and committees
- Initiating and (co-) developing collaborations with regional, national and international partners
- On-site presence at the university in order to provide optimal support for students
- Offering courses in English
