

Become a member of the Saarland University of Applied Sciences family. We are one of the most research-oriented universities of applied sciences in Germany with a strong entrepreneurial spirit. Thanks to our active university partnerships around the world and twelve Franco-German degree programs, we are both Francophile and internationally oriented. Our university currently has over 6,000 students and is located in the heart of Saarland's capital city, Saarbrücken. Enjoy the benefits of a dynamic and lively border region with an exceptionally high quality of life, while providing the next generation of specialists and managers with the best possible education and preparing them for the challenges of the future.

The Social Sciences Department has a vacancy for the following position to be filled at the earliest possible date:

## **W2 professorship (m/f/d) for Applied Nursing Sciences**

### → Your profile

We seek a candidate to represent Applied Nursing Sciences in teaching, research, and continuing education across all relevant areas of the faculty's degree programs. Additionally, the role entails the following responsibilities:

- Willingness to actively shape and promote the professionalization process and the development of nursing as a discipline. Attention should also be paid to the special features of primary academic qualifications.
- Proven professional and personal skills - including practical experience - in the management and design of highly complex care processes on the basis of science-based or science-oriented decisions
- For the theory-practice transfer, experience in the conception and implementation of skills lab teaching is an advantage
- Research expertise and experience in acquiring third-party funding are desirable
- Additional language skills in French and/or another foreign language are an advantage, as is proof of international contacts and experience

### → Your tasks

- Assuming responsibility for theoretical and practical teaching in our health-related degree programs, as well as interprofessional teaching in other degree programs at the faculty
- Conceptual and curricular (further) development, establishment and consolidation of a nursing-related degree program
- Supervising/guiding students during the course of the various theoretical and practical modules
- Willingness to take on new interdisciplinary challenges, for example in the theoretical and practical implementation of the extended transfer of medical knowledge
- Research and publications in the relevant fields
- Participation in academic self-governance and committees
- Initiating and (co-) developing collaborations with regional, national and international partners
- Offering English-language lectures, if required
- On-site presence at the university in order to provide optimal support for students
