Become a member of the Saarland University of Applied Sciences family. We are one of the most research-oriented universities of applied sciences in Germany with a strong entrepreneurial spirit. Thanks to our active university partnerships around the world and twelve Franco-German degree programs, we are both Francophile and internationally oriented. Our university currently has over 6,000 students and is located in the heart of Saarland's capital city, Saarbrücken. Enjoy the benefits of a dynamic and lively border region with an exceptionally high quality of life, while providing the next generation of specialists and managers with the best possible education and preparing them for the challenges of the future.

The School of Architecture and Civil Engineering is seeking to fill the following tenured professorship as soon as possible:

W2-Professorship (m/f/d) for Construction

→ Your profile

- Sound scientific knowledge and experience in the field of construction operations, including, for example, work preparation, digital object-oriented planning methods, BIM, scheduling, costing, construction management and construction process management
- Outstanding scientific and teaching qualifications
- Several years of relevant professional experience in the construction industry; practical experience in construction management or construction supervision is a plus
- A clear, application-oriented research profile is desired, one that facilitates collaborative research projects
- Fluency in German and English; knowledge of French is desirable
- Additional skills in another language are an advantage, as is proof of international contacts and experience

Your tasks

- Taking over relevant courses in the degree programs Europäisches Baumanagement (European Civil Engineering) and Bauingenieurwesen (Civil and Structural Engineering)
- Active participation in teaching the basics
- Transnational cooperation and commitment within the framework of the DFHI - Franco-German University Institute - and in the DFHI degree programs in European Civil Engineering (BA/MA)
- Development and implementation of innovative teaching concepts
- Dedicated participation in furthering the faculty and the university
- Willingness to cooperate and work in an interdisciplinary manner across different fields of study
- Representing your subject area in teaching, research and academic development
- Offering English and possibly French-language lectures
- On-site presence at the university in order to provide optimal support for students
