Become a member of the Saarland University of Applied Sciences family, one of the most research-oriented universities of applied sciences in Germany with a strong entrepreneurial spirit. With our active university partnerships around the world and twelve Franco-German degree programs, we are both Francophile and internationally oriented. Our university currently has over 6,000 students and is located in the heart of Saarland’s capital city, Saarbrücken. Enjoy the benefits of a dynamic and lively border region with an exceptionally high quality of life. Join us in providing the next generation of specialists and managers with the best possible education and preparing them for the challenges of the future.

The Faculty of Architecture and Civil Engineering, in cooperation with the IZES gGmbH (Institute for Future Energy and Material Flow Systems), has a vacancy for the following position to be filled at the earliest possible date:

As an affiliated institute of the htw saar, the IZES gGmbH is an integral part of the regional, national and international research landscape. With currently over 60 researchers and more than 4 million in third-party funding per year, IZES is one of the most important research institutions in the field of energy and material flow systems.
