Welcome to Saarbrücken and the htw saar

The htw saar currently offers more than 40 full-time degree programs, all accredited by national or international accreditation agencies, at four schools - the Business School, the School of Architecture and Civil Engineering, the School of Engineering and the School of Social Sciences. Currently, approximately 6,000 students are enrolled at the htw saar, including more than 700 international students from over 60 countries. The engineering faculty is the largest faculty at the htw saar.

Application Deadline
May 31, 2020

Engineering project in the industrial sector | English-language study program in Germany | Multidisciplinary tasks, multicultural teams | Seminars on project management, team building, intercultural communication and German | 30 ECTS

International Project Semester (IPS) for Bachelor Students in Engineering Sciences

The IPS is a program for international bachelor students in engineering sciences, which is organized by the School of Engineering at the htw saar in cooperation with companies from the Saar region. The IPS provides students from our partner universities with a unique opportunity: over the course of one semester, IPS students work on an actual engineering project (e.g. in robotics, materials science or product development) within a company in our region and also attend seminars at the htw saar. Participants acquire knowledge in project management and intercultural competence. German lessons, as well as an elective from the study program at the School of Engineering, round off the IPS. Team building events and organized social activities are also an important part of the project semester.

The IPS at a glance
- Engineering project in the industrial sector
- Duration: one semester
- From September 1, 2020 to January 25, 2021
- Entry requirements: minimum of 120 ECTS
- Program language: English (no German skills required)
- English proficiency requirement: B2
  For further information on the language certificate, please contact the ERASMUS program officer from your faculty.

Program
- Engineering project in the industrial sector (internship)
  15 ECTS
- Project management courses
  5 ECTS
- Electives from the School of Engineering
  5 ECTS
- Intercultural competence and German language courses
  5 ECTS
- Total: 30 ECTS credits

Start
September 1, 2020
Preparatory phase
Lectures on project management, team building, intercultural communication and German
Project phase
Project work in a company
Courses at the htw saar
End
January 25, 2021
